New Edition

MANZIM SURGICO

*Manufacturers & Exporters of Surgical, Dental Instruments
& Scissors all Sorts.*

Company Profile

Manzim surgico was founded over a quarter century ago to fill the need for old world craftsmanship, combined with our German technology and production know-how to achieve this unique combination of skills and instruments of the finest quality Manzim Surgico has devised and created New process, New quality control System .This concept has been building an enviable reputation in operating rooms throughout the world.

Products:

Manzim Surgico Strives to produce & Supply the latest and most comprehensive range of instruments, Due to rapid evolution in the field of biological science and constant revolution in surgical methodology,Manzim Surgico constantly review and update the product range with passage of time . All major production processes and performed in-house in production workshop.

Activity:

Manzim Surgico manufacture and Supply top quality Re-useable type and Single-use Dental instruments .

Quality Assurance:

Manzim Surgico prides itself on the rigorous quality control monitoring on every step from initial to final stage to ensure the supply of finest grade consistency instruments according to the required specifications supplied.

Certified Quality Awards:

Manzim Surgico's Production and quality comply with MD EEC 92/93 ,ISO 9001,ISO 13485 ,FDA ,CGMP,CE MARK .

Distribution:

Manzim Surgico's Instruments are distributed in South Korea,Spain, France, Germany, U.K, Rwanda, Australia,USA.

Customer Services:

Manzim Surgico is whole-heartedly committed to total customer satisfaction as our policy is Maximum Customer Satisfaction through: Best Quality Instruments, Competitive prices and on time Deliveries.

Contact No: 0092-52-3253436

Fax No: 0092-52-3253436

E-mail: support@manzimsurgico.com

info@manzimsurgico.com

Order Procedure:

When place an order by phone, fax or email please quote the following details.

- Order Number.
- Catalogue Number and description.
- Quantity
- Required Delivery Time.
- Special Marking (If any have)

Urgent Delivieries:

In case of urgency, we can dispatch orders within 1 to 2 weeks time.

Terms And Conditions:

The goods remain the property of Manzim Surgico until paid for in full. We only deal in terms of advance payment by T/T Telegraphic transfer or by irrevocable letter of credit L/C.

Gurantee:

MANZIM SURGICO Guaranteed unconditionally for three years, they clear boil and autoclave testing and are also passivated .The stainless steel to use manufacture instruments is the most suitable for the intended use of them. The fact that it will resist corrosion as it is further tested by different kind of chemical and physical testing. We use 410ss series of steel for non-cutting products and 420ss and french ss for cutting and scaling products.

Facility Address:

M/S: MANZIM SURGICO.

Our Scalers

Compare our scalers and curettes with the best in the industry and you will immediately recognize we are equal in every way but one... price. Note the deep precision knurling for better tactile feel. The same high-grade stainless steel tips, the same light weight (under 18 grams) for less hand fatigue, the same professional craftsmanship, and surpassing the highest industry standards. of course, any manufacturer can make these claims, but we guarantee and certify ours.

- High-polish mirror finish tips.
- Manufactured within the guidelines of the FDA quality assurance system for good manufacturing practices.
- Highest grade German stainless steel, razor sharp, durable tips. Rockwell hardened to 60 RHc.
- 27 of the most popular designs from graceys to McCalls to columbias, and many european patterns.
- All instruments are guaranteed against defects in material and workmanship.

- All instruments bear the ce mark, emblematic of the european community's highest standards.
- Customer satisfaction guarantee, too!
- Less than 20 grams ... Lightweight for less hand fatigue.
- Manufactured to the most exacting standards so the 50th instrument you buy is exactly like your first.
- You decide ... Why pay more for the same high-quality instruments?

VALUED BUYERS

Compare our scalers and curettes with the best in the industry and you will immediately recognize we are equal in every way but one... price. Note the deep precision knurling for better tactile feel. The same high-grade stainless steel tips, the same light weight (under 20 grams) for less hand fatigue, the same professional craftsmanship, and surpassing the highest industry standards. Of course, any manufacturer can make these claims, but we guarantee and certify ours. We regularly manufacturing below articles in showing handles & pattern A to L for better grip & perfection. We are also fully equipped & capable to develop these instruments as per your own specific requirements & demands in materials, sizes, shapes and patterns.

Composite Filling Instruments Set of 6 Pcs

DE-2163

DE-2164

DE-2165

DE-2166

DE-2167

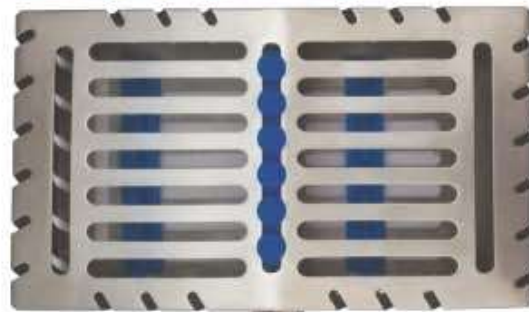

DE-2168

COMPOSITE INSTRUMENTS USE:

A composite (tooth colored) filling is used to repair a tooth that is affected by decay, cracks, fractures, etc. The decayed or affected portion of the tooth will be removed and then filled with a composite filling.

There are many types of filling materials available, each with their own advantages and disadvantages. You and your dentist can discuss the best options for restoring your teeth. Composite fillings, along with silver amalgam fillings, are the most widely used today. Because composite fillings are tooth colored, they can be closely matched to the color of existing teeth, and are more aesthetically suited for use in front teeth or the more visible areas of the teeth.

As with most dental restorations, composite fillings are not permanent and may someday have to be replaced. They are very durable, and will last many years, giving you a long lasting, beautiful smile.

Flexible Sinus-Lift Curettes – for an optimum sensitivity during the direct lift procedure

The perforation of the Schneiderian membrane is a complication that often occurs during a maxillary sinus floor augmentation procedure. The Sinus-Lift Instruments increase the sensitivity by blunt and flexible working tips with "Swing-Effect". Because of their special shapes and the characteristic of the stainless steel between the handle and the active part, light pressure is cushioned and gives the operator a direct and sensitive response. At the same time the risk to perforate the Schneiderian membrane is reduced to a minimum. Already at the development the focus was a practicable handling. Because of varying angulations and shapes of the active parts also in difficult areas they are easy to navigate also in difficult areas. The line of curettes consists of six different figures for every situation. They are complemented by spoon and condenser to place the bone graft.

The "Schneider's Membrane" of the sinus can be detached with curette by 1–2mm along the total cortical bone.

Curette is particularly useful in the lower part for detaching the membrane further. The same goes for the caudal area, especially when the membrane is 4–5 mm above the base of the maxillary sinus and the maxillary sinus is built up with granular material.

Curette makes it possible to lift the membrane further in mesial region. One working tip is especially designed for the right maxillary sinus and the other for the left maxillary sinus.

With curette the sinus membrane is further elevated in the upper and posterior part of the maxillary sinus wall.
